

Meet Quasar 2

The newest bi-directional charger from Wallbox

Quasar 2 is the next-generation bi-directional DC charger that enables your car to power your home, even during a power outage. Pull energy from your car and send it back to the grid or use it to power your home. When the power goes out, rest assured you and your family will stay safe as Quasar 2 will keep your home powered for over 3 days.
